

Rex James Heifer Grower

Rex James Heifer Grower is a nutritious grain supplement specifically designed to support the growth and development of dairy heifers. Rex James Heifer Grower is suitable for supplementing heifers from 6 months of age (or around 150 kgs) through until the transition period (2–3 weeks prior to calving), when growth rates from pasture/forage alone are below optimal.

Crude Protein	Min 16%
MJ ME/kg DM	Min 11.8 MJ
Crude Fibre	Max 9%
Crude Fat	Max 5%
Salt added	Max 1%
Urea added	Nil

*Typical analysis at 88.2% dry matter.

Rex James Heifer Grower contains a balanced blend of premium cereal grains and natural protein sources and is enriched with vitamins and minerals to give your stock the best chance to reach their genetic potential.

Benefits;

- Rumensin® (Monensin sodium) has been included to aid in coccidiosis control and to improve growth rates and feed conversion efficiency.
- A rumen buffer has been included to reduce the risk of digestive upset.
- High quality natural protein sources, balanced with proven starch sources.
- High quality vitamin and mineral premix included to support growth and maintain a healthy immune system.
- Balanced macro minerals to support and sustain growth

Rex James Heifer Grower

Directions of use;

Feed at a rate equivalent to 0.3–2% of body weight and adjust this to meet target growth rates. Feed in conjunction with an unrestricted fibre source and clean, fresh water.

In order to have heifers at target mating weights they should grow at approximately 0.7 kg/day (0.55 kg/day for jerseys). If weight gain is less than this the feeding rate of Rex James Heifer Grower should be adjusted.

Weight gains will vary based upon the quality and quantity of feed thought the season and therefore weight gains and frame size should be continually monitored and assessed and the feeding program adjusted when necessary. Excessive weight gains have also been shown to have an impact on later performance, so aim for a steady growth period.

Sizes

25 kg bags, Bulka Bags and Bulk.

Withholding periods;

Meat: Cattle – Nil

Milk: Cattle – Nil

Contraindications;

This product contains Rumensin® (Monensin sodium). Do not allow dogs, horses or other equines access to this feed, as it may be fatal.
