

Rex James Calf Grower

Rex James Calf Grower is a premium blend of high quality cereal grains, natural protein meals, legumes and a superior vitamin and mineral pellet to provide a nutritionally balanced feed for young calves. Rex James Calf Grower has been formulated for calves up to 12 weeks of age.

Crude Protein	Min 20%
MJ ME/kg DM	Min 12.8 MJ
Crude Fibre	Max 9%
Crude Fat	Max 5%
Salt	Max 0.5%
Urea	Nil

*Typical analysis at 88.2% dry matter

Benefits;

- 20% CP from superior natural protein sources for optimal growth and development.
- 12.8 MJ ME/kg DM supplied as a balanced starch profile to drive rumen development, and provide ample energy for growth.
- Bovatec® to aid in coccidiosis control and improve feed conversion efficiency.
- Enriched with a high specification vitamin and mineral premix to ensure healthy calves and to provide immune system support.
- Highly palatable which increases intakes and allows for an easy introduction.

Rex James Calf Grower

Directions of use;

During the milk feeding phase the aim of the program is to ensure grain consumption by providing unrestricted access to fresh Rex James Calf Grower. This is complimented by free access to straw. Fresh and clean water is essential as water is required for rumen fermentation, calves will not get all the water they need from milk.

Once calves are consistently (three consecutive days) consuming over 1kg of Rex James Calf Grower (0.75kg Jerseys) they are ready for weaning.

Calves should remain housed over weaning and until they reach 10-12 weeks of age. Their intake of Rex James Calf Grower will rapidly increase, so ensuring they have adequate access of fresh starter, straw and water is crucial. At 12 weeks they will be ready to introduce pasture and should be given enough Rex James Calf Grower to maintain desired growth rates.

Sizes

25Kg bags, Bulka Bags and Bulk

Withholding periods;

Meat: Cattle– Nil

Milk: Cattle –Nil

Contraindications;

This product contains Bovatec® (Lasalocid sodium). Do not allow dogs, horses or other equines , access to this feed, as it may be fatal.
