

Rex James Weaner Mix

Rex James Weaner Mix is a nutritious grain mix specifically designed to support the growth and development of weaned calves from 3-6 months of age, following on from Rex James Calf Starter.

It contains a balanced blend of premium cereal grains and natural protein sources and is enriched with vitamins and minerals to establish a strong start in life for your young stock.

Crude Protein	Min 18 %
MJ ME/ kg DM	Min 12.5 MJ
Crude Fibre	Max 9%
Crude Fat	Max 5%
Salt added	Max 0.7%
Urea	Nil

*Typical analysis at 88.2% dry matter

Benefits;

- Bovatec® (Lasalocid sodium) has been included to aid coccidiosis control and to improve growth rates and feed conversion efficiency.
- A feed flavour is present to ensure high intake rates are maintained.
- A rumen buffer has been included to reduce the risk of digestive upset.
- Balanced mineral profile to support strong and healthy bones.
- High quality natural protein sources.
- Enriched with a premium vitamin and mineral premix to keep calves healthy and to support the immune system.

Rex James Weaner Mix

Directions of use;

Feed ad-lib in conjunction with an unrestricted fibre source and clean, fresh water. To encourage high intake keep the feed fresh by replacing on a daily basis. Calves will generally consume 1.5-2.5% body weight of Rex James Weaner mix (max 4kg/ head / day). After six months of age dairy heifers can be transferred to Rex James Heifer Grower.

Sizes

25Kg bags, Bulka Bags and Bulk

Withholding periods;

Meat: Cattle– Nil

Milk: Cattle– Nil

Contraindications;

This Product Contains Bovatec® (Lasalocid sodium). **DO NOT** allow dogs, horses or other equines access to this feed, as it may be fatal.

For More information about your transition program please contact a Rex James Stockfeed ruminant nutrition specialist.
